

TRUeLIGHT
MACHINE VISION INTEGRATION

A BOS INNOVATIONS COMPANY

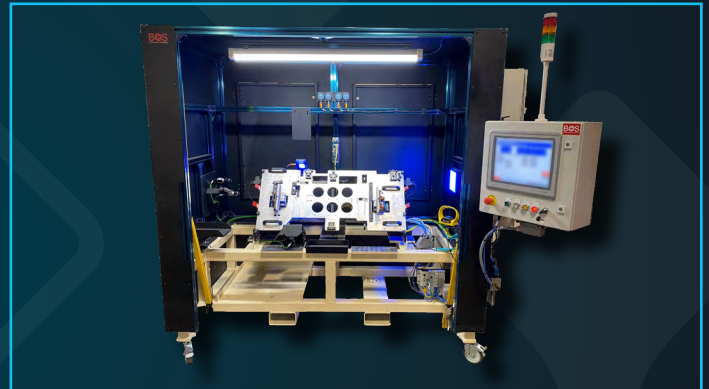

QUALITY & GAUGE SOLUTIONS

**Validate parts with speed,
accuracy and traceability**

TrueLight Machine Vision Integration designs and integrates custom Quality & Gauge Solutions that combine vision inspection, advanced robotics and Proximity Smart Support™ for a fully connected, intelligent inspection ecosystem.

End-Of-Line Inspection Station

2D Measurement Gauge Machine

CORE CAPABILITIES

- ◇ 2D, 3D, and AI-based Inspection
- ◇ Performance Analytics via Proximity Smart Support™
- ◇ Robotic Part Handling & Positioning
- ◇ Functional Testing (e.g. pressure, torque, electrical continuity)
- ◇ Poka-Yoke Design & Tooling
- ◇ Operator Guidance Interfaces (HMI/Andon)
- ◇ MES & ERP Integration for Traceability
